

Description

It is suitable for all kinds of electronic industry, which mainly solves the bad situation of products produced by manual breaking off.

Features

1. cutting speed adjustable, high as 500mm/s, and low as 300mm/s, higher speed can improve cutting result, make the boards away from burr.
2. Cutting length is 0 to 360mm (blade length can be customized) blade height slight adjustment in 0 to 2mm, platform height adjustable in 0 to 50mm, to fit PCB of different thickness, and solve the problem of different V-slot depth
3. Manually Set the position to stop automatically according to specific length of the PCB.
4. There is no restriction on width of target PCB, Max cutting length is 500mm, PCB thickness range is 0.2 to 5.0mm, max thickness among V-slot is 0.25 to 2.0mm
5. Blades material is the imported high speed steel, really durable, it can be sharpened again when in need.
6. Conveyor belt is optional, conveniently transfer finished PCB out.
7. Stop block can be used for different PCBs, to raise working efficiency
8. Professional V-cut PCB Separator Machine with Moveable Cutting Blade

Specifications

Machine Size(L*W*H)	900mm × 450mm × 420mm
Max cutting length	360mm and 600mm
Cutting Speed	0~500mm/S
Cutting thickness	0.2-5mm
Working Voltage	230V/50H(110V/60Hz)
Machine Weight	55 kg
Power	40W
