

The Turn Conveyor is a specialized equipment used in Surface Mount Technology (SMT) production lines for 90-degree lifting and turning operations, allowing for the merging or splitting of boards. This innovative solution addresses the challenge of limited space in SMT production lines, enhancing the overall efficiency and optimizing the utilization of factory space.

Welcome inquiry

1, Please visit : www.smtglobe.com

2, Welcome to our factory in China

4, Google: SMT AGV robot; Magazine rack AGV robot; Manual PCB depaneling machine

7, Looking forward to your email: info@smtglobe.com
