

## Description

- The manual PCB Depaneling Machine adopts an upper circular blade and lower straight blade design, with the PCB V-groove fixed on the lower straight blade during cutting, and the circular blade moves to cut the board.
- Low stress during cutting effectively avoids issues such as solder cracking and board damage, reducing the production of defective products during the depaneling process.

## Features

Manual PCB Depanelizer - Simple Type FR-4 PCB Depaneling Machine

Equipment Specifications:

Model: ETE-510M Machine

Dimensions: 806x250x340mm

Depaneling Thickness: 0.8-3.5mm

Maximum Depaneling Length: Unlimited Maximum

Depaneling Width: Within 360mm

Blade Material: SKD61 high-speed steel

CPH (cuts per hour): 1200-1800

Machine Weight: 35KG
